

ARG22355 anti-HA tag antibody [12CA5] (Agarose)

Package: 200 µl
Store at: 4°C

Summary

Product Description	Agarose-conjugated Mouse Monoclonal antibody [12CA5] recognizes HA tag
Tested Reactivity	Other
Tested Application	IP
Host	Mouse
Clonality	Monoclonal
Clone	12CA5
Isotype	IgG2b
Target Name	HA tag
Immunogen	A 9 amino acid peptide to influenza virus hemagglutinin.
Conjugation	Agarose

Application Instructions

Application table	Application	Dilution
	IP	Assay-dependent
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.	
Positive Control	HA tagged proteins.	

Properties

Form	Liquid
Buffer	2x slurry (0.5 ml of settled gel) containing 20 mM sodium phosphate, 150 mM sodium chloride (pH 7.5) and 0.08% sodium azide
Preservative	0.08% Sodium azide
Storage instruction	Aliquot and store in the dark at 2-8°C. Keep protected from prolonged exposure to light. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.
Note	For laboratory research only, not for drug, diagnostic or other use.

Bioinformation

Background	A nine amino acid sequence derived from the viral hemagglutinin is frequently incorporated into recombinant proteins as an expression tag.
