ARG22974 anti-CD200 antibody [OX-90] (Biotin)

Package: 100 μg Store at: 4°C

Summary

Product Description Biotin-conjugated Rat Monoclonal antibody [OX-90] recognizes CD200

Rat anti Mouse CD200 antibody, clone OX-90 recognizes the mouse CD200 cell surface antigen, also known as OX2.CD200 is expressed by splenic B lymphocytes, follicular dendritic cells, splenic endothelium and by neurons. Studies have suggested that the CD200 - CD200 ligand system is of

importance in the control of macrophage and granulocyte activation.

Tested Reactivity Ms

Tested Application FACS

Host Rat

Clonality Monoclonal

 Clone
 OX-90

 Isotype
 IgG2a

 Target Name
 CD200

Species Mouse

Immunogen Mouse CD200-rat CD4 fusion protein.

Conjugation Biotin

Alternate Names OX-2; OX-2 membrane glycoprotein; MOX1; MOX2; CD antigen CD200; MRC

Application Instructions

Application table

Application Dilution

FACS Assay-dependent

Application Note FACS: Use 10 μl of the suggested working dilution to label 10^6 cells in 100 μl.

 * The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations

should be determined by the scientist.

Properties

Form Liquid

Purification Purification with Protein G.

Buffer PBS, 0.09% Sodium azide and 1% BSA

Preservative 0.09% Sodium azide

Stabilizer 1% BSA

Concentration 0.1 mg/ml

Storage instruction Aliquot and store in the dark at 2-8°C. Keep protected from prolonged exposure to light. Avoid

repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be

gently mixed before use.

Bioinformation

Gene Symbol Cd200

Gene Full Name CD200 antigen

Background The protein encoded by this gene is a type-1 membrane glycoprotein, which contains two

immunoglobulin domains, and thus belongs to the immunoglobulin superfamily. Studies of the related genes in mouse and rat suggest that this gene may regulate myeloid cell activity and delivers an inhibitory signal for the macrophage lineage in diverse tissues. Multiple alternatively spliced transcript variants that encode different isoforms have been found for this gene. [provided by RefSeq, Jul 2008]

Function Costimulates T-cell proliferation. May regulate myeloid cell activity in a variety of tissues. [UniProt]

Calculated Mw 31 kDa
