

ARG43311 anti-CD30 antibody

Package: 100 μl Store at: -20°C

Summary

Product Description	Rabbit Polyclonal antibody recognizes CD30	
Tested Reactivity	Hu	
Tested Application	IHC-P, WB	
Host	Rabbit	
Clonality	Polyclonal	
Isotype	IgG	
Target Name	CD30	
Species	Human	
Immunogen	Synthetic peptide derived from Human CD30.	
Conjugation	Un-conjugated	
Alternate Names	rnate Names Tumor necrosis factor receptor superfamily member 8; Ki-1 antigen; CD30; Ki-1; Lymphocyte activatio antigen CD30; CD antigen CD30; D1S166E; CD30L receptor	

Application Instructions

Application table	Application	Dilution	
	IHC-P	1:100 - 1:500	
	WB	1:500 - 1:2000	
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.		
Positive Control	A431		
Observed Size	~ 110 kDa		

Properties

Form	Liquid	
Purification	Affinity purified.	
Buffer	PBS (pH 7.4), 150 mM NaCl, 0.02% Sodium azide and 50% Glycerol.	
Preservative	0.02% Sodium azide	
Stabilizer	50% Glycerol	
Storage instruction	instruction For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.	
Note	For laboratory research only, not for drug, diagnostic or other use.	

Bioinformation

Gene Symbol	TNFRSF8	
Gene Full Name	tumor necrosis factor receptor superfamily, member 8	
Background	CD30 is a member of the TNF-receptor superfamily. This receptor is expressed by activated, but not by resting, T and B cells. TRAF2 and TRAF5 can interact with this receptor, and mediate the signal transduction that leads to the activation of NF-kappaB. This receptor is a positive regulator of apoptosis, and also has been shown to limit the proliferative potential of autoreactive CD8 effector T cells and protect the body against autoimmunity. Two alternatively spliced transcript variants of this gene encoding distinct isoforms have been reported. [provided by RefSeq, Jul 2008]	
Function	CD30 is a receptor for TNFSF8/CD30L (PubMed:8391931). May play a role in the regulation of cellular growth and transformation of activated lymphoblasts. Regulates gene expression through activation of NF-kappa-B (PubMed:8999898). [UniProt]	
Calculated Mw	64 kDa	
PTM	Phosphorylated on serine and tyrosine residues. [UniProt]	
Cellular Localization	zation Isoform 1: Cell membrane; Single-pass type I membrane protein. Isoform 2: Cytoplasm. [UniProt]
