ARG44297
anti-NKIAMRE antibody

Package: 50 µl
Store at: -20°C

Summary

Product Description	Rabbit Polyclonal antibody recognizes NKIAMRE
Tested Reactivity	Hu
Tested Application	WB
Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Target Name	NKIAMRE
Species	Human
Immunogen	Synthetic peptide
Conjugation	Un-conjugated
Alternate Names	CDKL3; Cyclin Dependent Kinase Like 3; NKIAMRE; Cyclin-Dependent Kinase-Like 3; Serine-Threonine Protein Kinase NKIAMRE

Application Instructions

Application table

Application	Dilution
WB	1:500-1:1000

Application Note: * The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.

Properties

Form	Liquid
Purification	Antigen Affinity Purified
Buffer	PBS with 0.02% Sodium azide
Preservative	0.02% Sodium azide
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.

Bioinformation

Gene Symbol	CDKL3
Gene Full Name	Cyclin Dependent Kinase Like 3
Background	The protein encoded by this gene is a member of cyclin-dependent protein kinase (CDK) family. CDK

	family members are highly similar to the gene products of Saccharomyces cerevisiae cdc28, and Schizosaccharomyces pombe cdc2, and are known to be important regulators of cell cycle progression. This gene was identified as a gene absent in leukemic patients with chromosome 5q deletion. This loss may be an important determinant of dysmyelopoiesis. Alternative splicing results in multiple transcript variants encoding different isoforms.
Calculated Mw	68 kDa
PTM	Phosphoprotein
Cellular Localization	Cytoplasm
