

## ARG57539 anti-S tag antibody

Package: 100 µl  
Store at: -20°C

### Summary

Product Description	Mouse Monoclonal antibody recognizes S tag
Tested Reactivity	Other
Tested Application	WB
Specificity	This antibody can recognize S tag fusion proteins.
Host	Mouse
Clonality	Monoclonal
Target Name	S tag
Species	Others
Immunogen	Synthetic peptide.
Conjugation	Un-conjugated

### Application Instructions

Application table	Application	Dilution
	WB	1:5000

**Application Note** \* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.

### Properties

Form	Liquid
Purification	Fractional precipitation
Buffer	PBS (pH 7.4), 0.02% Sodium azide and 50% Glycerol.
Preservative	0.02% Sodium azide
Stabilizer	50% Glycerol
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.
Note	For laboratory research only, not for drug, diagnostic or other use.

### Bioinformation

**Background** S tag, a fusion peptide tag derived from pancreatic RNase A that is widely used in protein expression applications.

S-Tag fusion protein
