

## ARG67003 anti-Influenza B nucleoprotein antibody

Package: 100 µl  
Store at: -20°C

### Summary

Product Description	Rabbit Polyclonal antibody recognizes Influenza B nucleoprotein
Tested Reactivity	Influenza B virus
Tested Application	WB
Specificity	This kit does not react to Influenza A nucleoprotein.
Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Target Name	Influenza B nucleoprotein
Species	Virus
Immunogen	Recombinant influenza virus type B nucleoprotein
Conjugation	Un-conjugated

### Application Instructions

Application table	<table><thead><tr><th>Application</th><th>Dilution</th></tr></thead><tbody><tr><td>WB</td><td>1:2000 - 1:20000</td></tr></tbody></table>	Application	Dilution	WB	1:2000 - 1:20000
Application	Dilution				
WB	1:2000 - 1:20000				
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.				
Observed Size	~60-65 kDa				

### Properties

Form	Liquid
Purification	Affinity purified.
Buffer	100 mM Tris Glycine (pH 7.0), 0.025% ProClin 300 and 20% Glycerol.
Preservative	0.025% ProClin 300
Stabilizer	20% Glycerol
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.
Note	For laboratory research only, not for drug, diagnostic or other use.
